

## BDP 50/1500 C

The ultra-high-speed machine BDP 50/1500 C achieves up to 30% higher productivity than traditional high-speed machines when polishing smooth high-gloss floors.

### 1 Integrated vacuuming system

- The guard ensures that polishing dust stays under the machine. The dust is collected in the dust container by passive vacuuming to reduce dust impact while polishing.
- Any dust collected is easy to empty - the filter bag is reusable.

### 2 Automatic contact pressure

- The pad drive board is spring-mounted. The contact pressure is automatically regulated for consistent polishing results.
- The pad maintains optimal surface contact and follows any floor unevenness.

### 3 Central wheel

- For cleaning right up to edges - also forwards.

## BDP 50/1500 C

- Mains operation for uninterrupted use
- With central guide wheel - polishing up to the edge
- Dust-free operation thanks to built-in dust suction

### Technical data

<b>Order no.</b>	1.291-141.0	
<b>EAN code</b>	4039784471085	
<b>Working width</b>	mm	510
<b>Working width, vacuuming</b>	mm	560
<b>Max. area performance</b>	m <sup>2</sup> /h	900
