

## TB 42

TB 42 commercial vehicle wash for automatic exterior cleaning. The 3-brush gantry allows a washing height of 4.25 m and offers total flexibility for different vehicle sizes and types.

### 1 Low maintenance effort saves on time and costs

- Tried-and-tested belt or direct drives make lubrication of the system unnecessary.

### 2 High user-friendliness makes working processes faster and easier

- Large, clear and robust control panel with intuitive user interface which can be used while wearing work gloves.

### 3 High variability for vehicle types, construction and expansion options

- Universal CAN bus control for easy installation and individual expansion options.
